

*For a world where roads
are safe for every road user,
everywhere.*

Revel joins the UN global partnership to build a world where roads are safe for everyone.

Geneva, 03 May 2022

The UN Road Safety Fund (UNRSF) is pleased to announce that Revel, an electric mobility and infrastructure company based in the United States, has joined its global partnership to tackle the hard-hitting global road safety crisis we all face today.

Since 2018 the Fund has been working to help halve road deaths and injuries in low- and middle-income countries, where over 90% of the 1.3 million fatal crashes occur each year.

By joining the Fund, Revel forms part of a global network of communities, civil society, governments, companies and UN agencies that are addressing critical gaps in national road safety systems.

As an innovative pooled fund, the UNRSF mobilizes financing from private, public and individual donors channelling resources to high-impact, scalable and sustainable road safety projects worldwide. In operation in 30 countries across 5 regions, assistance is already going to support better urban planning for school zones, low emission non-motorized transport, speed management and cleaner safer used vehicle standards.

“Improving road safety is a goal that impacts everything we do at Revel, and we’re proud to support the UNRSF as they tackle this issue on a global scale.”

Frank Reig, Revel CEO and Co-Founder.
