

*For a world where roads
are safe for every road user,
everywhere.*

The Grand Duchy of Luxembourg joins the UN global partnership to build a world where roads are safe for everyone.

Geneva, 29 April 2022

The UN Road Safety Fund (UNRSF) is pleased to announce that the Grand Duchy of Luxembourg has joined its global partnership to tackle the hard-hitting global road safety crisis we all face today.

Since 2018 the Fund has been working to help halve road deaths and injuries in low- and middle-income countries, where over 90% of the 1.3 million fatal crashes occur each year.

By joining the Fund, the Grand Duchy of Luxembourg forms part of a global network of communities, civil society, governments, companies and UN agencies that are addressing critical gaps in national road safety systems.

As an innovative pooled fund, the UNRSF mobilizes financing from private, public and individual donors channelling resources to high-impact, scalable and sustainable road safety projects worldwide. In operation in 30 countries across 5 regions, assistance is already going to support better urban planning for school zones, low emission non-motorized transport, speed management and cleaner safer used vehicle standards.

“During the last 40 years, great efforts have been deployed to improve road safety. Luxembourg has therefore adopted a “Vision Zero strategy”. No persons killed or injured on our roads. In order to share this knowledge, Luxembourg is pleased to join the United Nations global partnership to improve road safety for everyone.”

- **H.E. François Bausch**, Deputy Prime Minister, The Grand Duchy of Luxembourg.
